I. STATUTORY DIRECTIVE

IC 12-17.2-3.3, establishing the Committee on Child Care, was enacted in P.L. 126-2007. IC 12-17.2-3.3-5 specifies the Committee responsibilities as follows:

Sec. 5. (a) The committee shall:

- (1) study the system of child care regulation; and
- (2) report and make recommendations concerning the system of child care regulation to the legislative council in an electronic format under IC 5-14-6 not later than October 31 of each year.

(b) The committee's recommendations under subsection (a) must further the following child care regulation purposes:

- (1) To provide support for families in need of reliable, high quality child care.
- (2) To encourage and support high quality child care providers.
- (3) To allow for a variety of methods of child care provision and allow each family to determine the method preferred for the family's children.
- (4) To promote access to available and affordable child care by parents.
- (5) To encourage the state to access all available federal funds for child care.

(c) The committee's program of study must include consideration of the following:

- (1) The effect of child care and child care regulation on families.
- (2) Encouragement of high quality child care.
- (3) Issues related to the child care workforce, including job satisfaction, compensation, and turnover.
- (4) A review of child care models.
- (5) Ensuring the safety of children.
- (6) Any need for reorganization and refocusing of governmental agencies responsible for regulation of child care.
- (7) Parental rights.

II. INTRODUCTION AND REASONS FOR STUDY

Current Indiana law provides for licensure and registration of various types of child care providers, including child care homes, child care centers, and child care ministries. Licensure and registration are not required for certain child care homes. Other requirements apply to child care providers that receive payment for child care under the federal Child Care and Development Fund program administered under 45 CFR 98 and

45 CFR 99, regardless of licensure or registration.

The Committee was formed to further the statutory purpose of supporting quality child care and assisting families by improving access to and choice of child care providers. Advisory committees concerning child care homes and child care centers were formed as a result of legislation passed in 2007. The purposes of the advisory committees are to advise the Division of Family Resources concerning child care regulation specific to the type of child care provider represented by the advisory committee, and to annually report to the Committee.

III. SUMMARY OF WORK PROGRAM

The Committee met three times during the 2013 interim.
